The Cyberdore - RPi powered Cyberdeck

This is cyberdeck case and works great with:

- Raspberry Pi 1,2,3,4 or Zero
- 3.5" LCD display (i.e. Waveshare)
- Good front panel fit for Rii X1 mini wireless keyboard
- 18650 battery shield
- Extra slot for 1.5" OLED display

All parts can be printed without support.

Can be printed with Prusa Mini (printed mine as well).
